

## Application note for Mac O.S.

### (A) Setting Up Your Computer for Bluetooth (manual based on Mac OS 10.1.4)

- (1) You need to set up your computer to use Apple Bluetooth Preview Release 2.1
- (2) Insert the Bluetooth USB Adapter into an open USB port on your computer.
- (3) Double-click "**Apple Bluetooth.pkg.**" Install the Apple Bluetooth Preview Release 2 software, then restart your computer.
- (4) Open the Bluetooth pane of System Preferences and click the Settings tab.

- (5) Select "**Discoverable**" and "**Show Bluetooth status in the menu bar**".

## **(B) Pairing Your Macintosh With a Bluetooth-Enabled Phone**

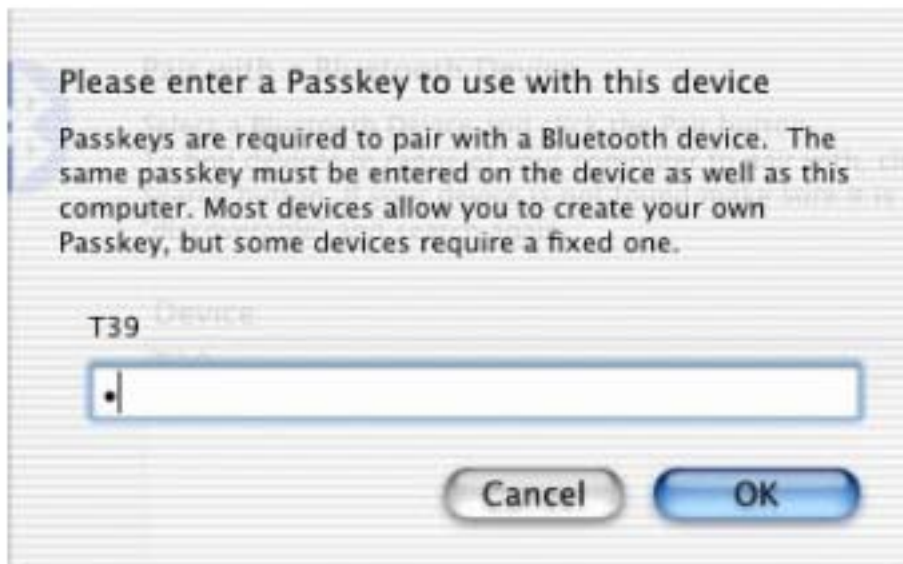

- (1) Before you can connect to the Internet, you need to pair your computer with your Bluetooth-enabled phone.
- (2) Make sure your Bluetooth-enabled phone is on and in “discoverable” mode. See the documentation that came with your phone.
- (3) Choose Search For Phones from the Bluetooth status menu in the menu bar.

(4) Select your phone in the "Pair with a Bluetooth Device" dialog box, then click Pair.

(5) Enter a passkey. Use any combination of numbers. When prompted, enter the same passkey on your phone.

(6) Your computer is now paired with your phone. The name of your phone is listed in the Bluetooth status menu in the menu bar. Apple Bluetooth software remembers the pairing with your phone, so you should only need to pair with your phone once.

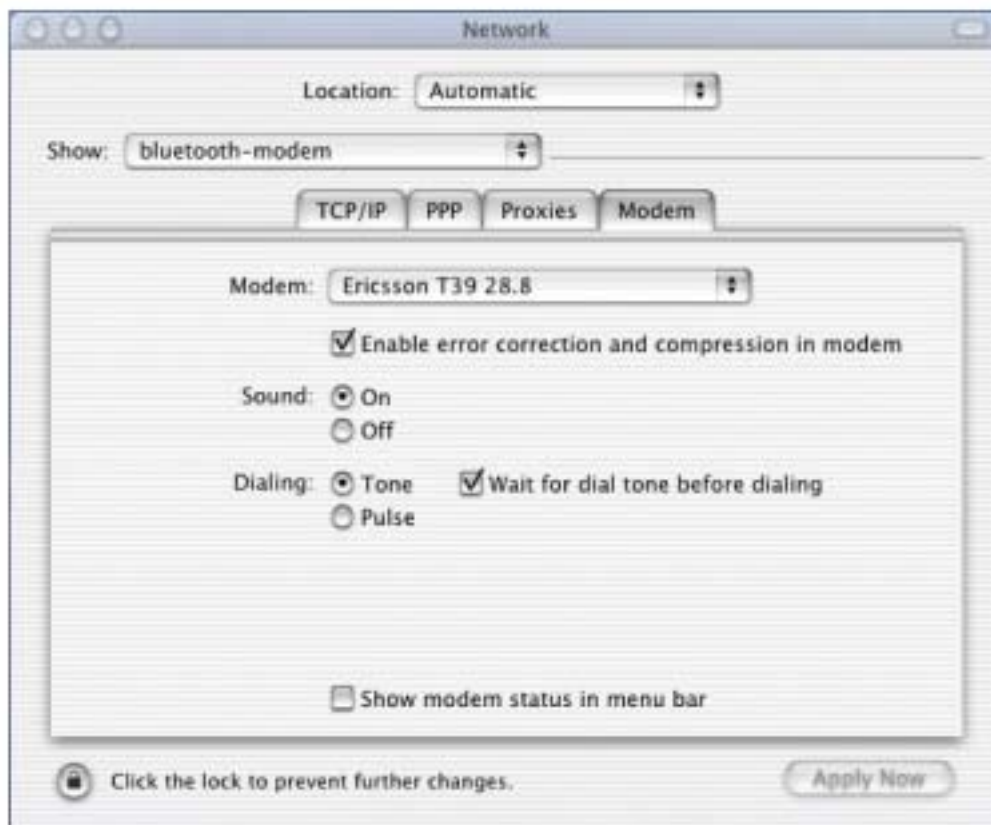

(7) You can now use your phone to dial your Internet service provider (ISP) and connect to the Internet. Follow these instructions to set up your computer and connect to the Internet.

**Note:** *To access the Internet, you must have an active mobile phone account capable of digital services and an account with an ISP (fees may apply).*

### (C) Connecting to the Internet With a Bluetooth-Enabled Phone

To set up your computer to connect to the Internet with a Bluetooth-enabled phone:

- (1) Choose your phone from the Bluetooth status menu in the menu bar.
- (2) Open the Network pane of System Preferences. Choose **"Bluetooth modem"** from the Show pop-up menu.

Note: Make sure the "Bluetooth modem" port is turned on in the Network pane of System Preferences. To do this, choose Active Network Ports from the Show pop-up menu, and then select "Bluetooth modem".

- (3) Enter your ISP information in the TCP/IP and PPP tabs.
- (4) Choose the model of your phone from the Modem pop-up menu in the Modem tab.

**(D) To connect to the Internet:**

(1) Choose Open Internet Connect from the Bluetooth status menu in the menu bar.

(2) Choose "bluetooth modem" from the Configuration pop-up menu then click Connect.

## **(E) Pairing Your Macintosh With Bluetooth-Enabled Devices**

Apple Bluetooth Preview Release 2 also lets you pair with other Bluetooth-enabled devices like Palm Powered handheld devices and other Bluetooth-enabled computers. Once you have paired with the device, Bluetooth remembers its name and the type of services it provides. Make sure the devices you want to pair with are in discoverable mode. See the documentation that came with the device.

(1) Click the Paired Devices tab in the Bluetooth pane of System Preferences.

(2) Click New. Bluetooth searches for Bluetooth-enabled devices in range of your computer.

(3) Select the device you want to pair with and click Pair.

(4) Enter a passkey. Use any combination of numbers. If prompted, enter the same passkey on your Bluetooth-enabled device. Bluetooth remembers the name of the device. To delete the device from the list, select it and click Delete.

## (F) Adding Serial Ports

Apple Bluetooth Preview Release 2 allows you to add any number of serial ports to your computer to enable incoming and outgoing connections with Bluetooth devices.

To add serial ports to your computer:

(1) Click New in the Serial Ports tab of the Bluetooth pane of System Preferences.

(2) Name the port and select options for it.

**Note:** If the port is an outgoing port, click Select Device and then select a device from the Select Bluetooth Device Service list or search for a device by clicking Search.

## **(G) Exchanging Files Between Bluetooth-Enabled Devices**

You can use the Bluetooth File Exchange application to exchange files between Bluetooth enabled devices. The Bluetooth File Exchange application is located in the Bluetooth folder, in the Extras folder inside the Applications folder on your hard disk.

Make sure the devices you want to exchange files with are discoverable.

(1) Drag the file you want to exchange onto the Bluetooth File Exchange icon. It is located in the Bluetooth folder, in the Extras folder inside the Applications folder on your hard disk.

(2) Click Search in the Send Files dialog box to find the Bluetooth-enabled devices in range.

(3) Select the name of the device you want to send files to from the list, then click Send.

**Note:** *If no devices are found, make sure they are in discoverable mode. To make your computer discoverable, select Discoverable in the Settings tab of the Bluetooth pane of System Preferences.*

(4) If you are asked for a passkey, enter one and click Respond. If the device receiving the files is prompted for a passkey, enter the same passkey on the receiving device and click Respond.

(5) If the receiving device is prompted that it is preparing to receive a file, click Accept to receive the files. Depending on the options selected, it may ask to open the file. Click Open to open the file.

## **(H) Synchronizing a Bluetooth-Enabled Palm Powered Device**

With a Computer Using Palm HotSync Manager

If you have a Bluetooth-enabled, Palm Powered device, you can synchronize data between the device and a Bluetooth-enabled Macintosh using Palm HotSyncR Manager. Make sure you have Palm Desktop 4.0 installed on your computer. For the latest version of the Palm Desktop software, go to [www.palm.com/macintosh](http://www.palm.com/macintosh)

185

## **(AA) Setting up Your Computer to Synchronize With the Palm Powered Device**

(1) Open HotSync Manager, located in the Palm folder in the Applications folder on your hard disk.

(2) Select "bluetooth-pda-sync-port" in the Connection Settings tab.

Note: Make sure Enabled is selected in the HotSync Controls tab.

## **(AB) Setting Up Your Palm Powered Device to Synchronize With Your Computer**

The following setup procedure only needs to be done once. Depending on the device, the names and locations of some menus may be different. For precise instructions, see the documentation that came with your device.

(1) Open HotSync on your Palm Powered device.

(2) Choose Connection Setup from the Options menu.

(3) Click New to create a new connection and name the connection.

(4) Choose PC from the "Connect to" pop-up menu and choose Bluetooth from the Via pop-up menu.

(5) Tap to find Bluetooth-enabled devices and choose your device from the list. Click OK.

(6) Click OK, and then click Done.

## **(AC) Synchronizing Your Handheld Device With Your Computer**

(1) Choose the Bluetooth connection from the Connections pop-up menu.

(2) Click the HotSync icon.
